EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Seth Weinfeld (Reg. No. 50,929) on 3/20/2006.

The application has been amended as follows:

In claim 8, lines 10-11, "thereby delaying a connection process for said predetermined time period" has been corrected to -- thereby causing the physical layer interface circuits to execute the connection procedure after said predetermined time period--.

In claim 15, lines 8-9, "thereby delaying a connection process for said predetermined time period" has been corrected to -- thereby causing the physical layer interface circuits to execute the connection procedure after said predetermined time period--.

2. The following is an examiner's statement of reasons for allowance: the closest prior art of record is the combination of Applicant's Admitted Prior Art (AAPA) and U.S. Patent 5,953,346 to Luddy. The combination of AAPA and Luddy discloses all the limitations of claim 1 except the limitation of executing the connection procedure (negotiation or arbitration of transmission rate) by the two subsystems after said predetermined time period has elapsed. This limitation clearly indicates that the ignoring step (which occurs for said predetermined time period) occurs prior to the connection procedure. The combination of AAPA and Luddy

Art Unit: 2666

discloses ignoring signals until the connection procedure has completed. The combination of AAPA and Luddy does not disclose all the limitations of claims 8 and 15 for reasons similar to those stated above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert C. Scheibel whose telephone number is 571-272-3169. The examiner can normally be reached on Monday and Thursday from 6:30-5:00 Eastern Time.
